Nexto Video Storage pro **NVS2500**

NVS2500 from NextoDI is the world's first SxS and P2 raw video backup storage. NVS2500 made the DV BLACK DIAMOND 2009 winner list at NAB, Las Vegas.

It features native ExpressCard, CompactFlash and SDHC slots. The patented core technology X-copy makes NVS2500 possible to achieve the ultra fast data transfer of 80Mb/s. With the built-in 2.4" color preview monitor, you can review your transferred footage as thumbnails and playback video clips. Also, there's a multiple back-up function where you can plug a second hard drive into the NVS2500 and back-up to both devices simultaneously without requiring a laptop.

The NVS2500's high performance, reliability and portability make it an indispensable tool for solid state workflow!

Highlights

Fastest data backup speed at 80Mb/sec

Portable storage with built-in battery

Thumbnails view & previewing video clips on its built-in 2.4" color LCD

Versatile power usage

Back-up a wide range of removal memory cards and formats, including SxS, CF, SDHC & MS Pro-HG (also P2 via an adaptor)

Shock Protection with Free Fall Sensor

Easy to generate secondary back-up using USB host functionality

High Storage Capacities up to 500GB (forward compatible to 2,000GB)

Cost effective. Fast. Indispensable. Portable. Reliable.
